Power window motors in the 1989 Chevrolet G-20 are the keystone components in the van ' s power window system. The motors transform the electrical power from the power window circuit into kinetic energy they employ to move the window regulators. Each regulator holds a window and moves it up or down depending on the direction the motor turns.

"1989 Chevy Van Electrical Diagnosis & Wiring Diagrams" Written for Chevrolet dealership mechanics, this factory-published original wiring diagram shows you how to follow the wiring from bumper-to-bumper. It will help you understand connector configurations, and locate and identify circuits, relays, and grounds. You will not find these wiring diagrams in the factory shop manual.
