Structure of Carbohydrates.

Monosaccharides All carbohydrates are formed from the elements carbon (C), hydrogen (H) and oxygen (O). The formula of a carbohydrate is always $(CH_2O)_n$. The n represents the number of times the basic CH_2O unit is repeated, e.g. where $n = 6$ the molecular formula is $C_6H_{12}O_6$. This is the formula shared by glucose and other simple sugars like fructose.
