of Anglicanism. Aimed at students preparing for ministry, it presumes no prior knowledge of the subject and offers helpful overviews of Anglican history, liturgy, theology, Canon Law, mission and global Anglicanism. As well as offering updated and improved lists of further reading, this second edition brings a greater emphasis on worldwide expressions of Anglicanism, with more examples taken from Asian and African contexts, and a brand new section which considers the rise of the global communion alongside issues of inculturation and indigenisation.

The Age of Miracles Has Not Ceased — It Never Has! Were you told that the age of miracles ceased with the death of the apostles — or that the gifts of the Spirit and the miraculous have passed away? If you have been taught this, here is a series that will set you free! In this powerful five-part series taught by Rick Renner and Tony Cooke, the subject of miracles throughout Church history is expounded upon powerfully. You might be shocked to hear that miracles have never, EVER passed away — not even temporarily. The history of the Church is jam-packed with the miraculous work of God throughout the ages. This series, based on Scripture and well-documented history, will prove it to you. You'll learn: That miracles have never ceased. That God has consistently performed miracles throughout the ages. That the notion that miracles have passed away is pure nonsense. That history irrefutably proves that God is still in the miracle business. That the Holy Spirit wants to release miraculous power in your life.

Pelikan discusses how each age created Jesus in its own image, discovering in his life and teachings the answers to fundamental questions of human existence and destiny. Studying the images of Jesus cherished by successive ages - from rabbi in the first century to universal man in the Renaissance to liberator in the nineteenth and twentieth centuries - Pelikan suggests that the way a particular age

depicted Jesus is an essential key to understanding that era.--desc. from illus. ed.

Davies outlines the composition and date of Numbers, and the various attempts that have been made to establish a coherent and meaningful structure in its arrangement. Davies also shows how the application of reader-response criticism, feminist criticism and postcolonial criticism have contributed to our understanding of selected passages in the book. Addressing theological issues, Davies considers three themes that occupy much of the content of Numbers, namely; land, purity and holiness, and rebellion. The concluding chapter considers the contentious issue of the historicity of the book of Numbers in the light of recent discussions concerning the historical value of the Old Testament. Davies shows how some of the issues Numbers raises – war, disease, survival, hunger, race relations – are among the perennial problems faced by nations across the centuries and across cultures. While individual passages within Numbers may reflect a questionable sense of morality, Davies demonstrates that the book, when viewed in its totality, encompasses a number of important theological themes which recur throughout the Old Testament: the interplay of forgiveness and judgment, and of sin and punishment, and the need to trust in the power of God rather than human might.

Poetry for Students for all of your research needs.

The book of Acts opens with the dramatic story of tongues of flame descending upon believers at Pentecost and the prophecy of an egalitarian dispensation of the Spirit being fulfilled. Yet, as the narrative unfolds, we become aware of a tension between the socially egalitarian promise of the Pentecost story and the author's underlying concern to provide reassurance for his elite patron Theophilus that Jesus followers do not disturb the existing social order. In this guide, Acts is read as a struggle to tame the tongues of fire. Acts mutes the egalitarian promise of the Spirit through presenting an 'orderly account' (as its author calls it) of the Jesus movement that appeals to elite sensibilities. And, at the same time, the narrative contains contradictions, gaps and fissures that suggest the outlines of a more complex, and even subversive, religious movement.
