“ How sure can you be that you're not dreaming right now? ” “ Up until now, completely sure, ” I responded. “ Dreams aren't really anything like reality. Dreams are, well, they're more dreamy. You can just tell. Things happen in dreams that don't happen in reality. Usually, anyway. ” The hero of *The Dream Weaver*, young Ian Pinkle, encounters a world full of the unknown. With the help of a mentor and a friend or two, he sheds light on some of life's most difficult questions: How do we determine morality? What is the meaning of life? Does God exist? How can we determine Truth? Fairness? What are the mind and soul like? Ian--in his playful, curious manner--addresses these questions in a way that lets readers develop their own answers, and in

doing so, he guides the readers through a history of philosophical thought in a clever, conversational and even adventurous style. This allows readers to think for themselves, ask questions themselves--and to be philosophers themselves. Alongside Ian's story are annotations that connect Ian's dilemmas and insights to some of the most renowned thinkers throughout history. Whether Ian is creating universes to explore the apparent paradoxical issues of evil, or playfully addressing (and solving!) the chicken-or-the-egg question, he will provide all readers with both "a ha!" moments and moments that challenge their most firmly rooted foundations. And all the while, there's a nice little surprise waiting at the end.

students the opportunity to experience written documents, visual materials, material culture artifacts, and maps—the materials historians actually work with to decipher the past. Completely unique in this market, *American History First Hand: Working with Primary Sources* is innovative and exciting, allowing students to learn first-hand what history is and what historians actually do. In each volume, there are 12 archives, with each archive containing loose facsimiles for students to explore. In addition to the documents, students will also obtain a four-page introduction that describes the issues and themes of the folders. Pedagogical materials will help them explore the ramifications of these sources, as they practice the art of historical analysis.

In *The Liar in Your Life*, psychology professor Robert Feldman, one of the world's leading authorities on deception, draws on his immense body of knowledge to give fresh insights into how and why we lie, how our culture has become increasingly tolerant of deception, the cost it exacts on us, and what to do about it. His work is at once surprising

and sobering, full of corrections for common myths and explanations of pervasive oversimplifications. Feldman examines marital infidelity, little white lies, career-driven resumé lies, and how we teach children to lie. Along the way, he reveals—despite our beliefs to the contrary—how it is nearly impossible to spot a liar (studies have shown no relationship between nervousness, lack of eye contact, or a trembling voice, and acts of deception). He also provides startling evidence of just how integral lying is to our culture; indeed, his research shows that two people, meeting for the first time, will lie to each other an average of three times in the first ten minutes of a conversation. Feldman uses this discussion of deception to explore ways we can cope with infidelity, betrayal, and mistrust, in our friends and family. He also describes the lies we tell ourselves: Sometimes, the liar in your life is the person you see in the mirror. With incisive clarity and wry wit,
