The author of the international bestseller *The Rise and Fall of the Third Reich* offers a personal account of life in Nazi Germany at the start of WWII. By the late 1930s, Adolf Hitler, Führer of the Nazi Party, had consolidated power in Germany and was leading the world into war. A young foreign correspondent was on hand to bear witness. More than two decades prior to the publication of his acclaimed history, *The Rise and Fall of the Third Reich*, William L. Shirer was a journalist stationed in Berlin. During his years in the Nazi capital, he kept a daily personal diary, scrupulously recording everything he heard and saw before being forced to flee the country in 1940. *Berlin Diary* is Shirer's first-hand account of the momentous events that shook the world in the mid-twentieth century, from the annexation of Austria and Czechoslovakia to the fall of Poland and France. A remarkable personal memoir of an extraordinary time, it chronicles the author's thoughts and experiences while living in the shadow of the Nazi beast. Shirer recalls the surreal spectacles of the Nuremberg rallies, the terror of the late-night bombing raids, and his encounters with members of the German high command while he was risking his life to report to the world on the atrocities of a genocidal regime. At once powerful, engrossing, and edifying, William L. Shirer's *Berlin Diary* is an essential historical record that illuminates one of the darkest periods in human civilization.

*Rivaling the nonfiction works of Steve Sheinkin and Daniel James Brown's *The Boys in the Boat*...Even readers who don't appreciate sports will find this story a page-turner. --School Library Connection, starred review *A must for all library collections. --Booklist, starred review Winner of the 2020 AJL Sidney Taylor Honor! From the New York Times bestselling author of *Strong Inside* comes the remarkable true story of the birth of Olympic basketball at the 1936 Summer Games in Hitler's Germany. Perfect for fans of *The Boys in the Boat* and *Unbroken*. On a scorching hot day in July 1936, thousands of people cheered as the U.S. Olympic teams boarded the S.S. *Manhattan*, bound for Berlin. Among the athletes were the 14 players representing the first-ever U.S. Olympic basketball team. As thousands of supporters waved American flags on the docks, it was easy to miss the one courageous man holding a BOYCOTT NAZI GERMANY sign. But it was too late for a boycott now; the ship had already left the harbor. 1936 was a turbulent time in world history. Adolf Hitler had gained power in Germany three years earlier. Jewish people and political opponents of the Nazis were the targets of vicious mistreatment, yet were unaware of the horrors that awaited them in the coming years. But the Olympians on board the S.S. *Manhattan* and other international visitors wouldn't see any signs of trouble in Berlin. Streets were swept, storefronts were painted, and every German citizen greeted them with a smile. Like a movie set, it was all just a facade, meant to distract from the terrible things happening behind the scenes. This is the incredible true story of basketball, from its invention by James Naismith in Springfield, Massachusetts, in 1891, to the sport's Olympic debut in Berlin and the eclectic mix of people, events and propaganda on both sides of the Atlantic that made it all possible. Includes photos throughout, a Who's-Who of the 1936 Olympics, bibliography, and index. Praise for *Games of Deception* A 2020 ALA Notable Children's Book! A 2020 CBC Notable Social Studies Book! Maraniss does a great job of blending basketball action with the horror of Hitler's Berlin to bring this fascinating, frightening, you-can't-make-this-stuff-up moment in history to life. -Steve Sheinkin, New York Times bestselling author of *Bomb* and *Undeclared* I was blown away by *Games of Deception*...It's a fascinating, fast-paced, well-reasoned, and well-written account of the hidden-in-plain-sight horrors and atrocities that underpinned sports, politics, and propaganda in the United States and Germany. This is an important read. -Susan Campbell Bartoletti, Newbery Honor winning author of *Hitler Youth* A richly reported and stylishly told reminder how, when you scratch at a sports story, the real world often lurks just beneath. --Alexander Wolff, New York Times bestselling author of *The Audacity of Hoop: Basketball and the Age of Obama* An insightful, gripping account of basketball and bias. --Kirkus Reviews An exciting and overlooked slice of history. --School Library Journal

A tour de force from acclaimed author Alan Gratz (*Prisoner B-3087*), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge.

The dictator who grew so rich on his country's cocoa crop that he built a 35-storey-high basilica in the jungles of the Ivory Coast. The austere, incorruptible leader who has shut Eritrea off from the world in a permanent state of war and conscripted every adult into the armed forces. In Equatorial Guinea, the paranoid despot who thought Hitler was the saviour of Africa and waged a relentless campaign of terror against his own people. The Libyan army officer who authored a new work of political philosophy, *The Green Book*, and lived in a tent with a harem of female soldiers, running his country like a mafia family business. And behind these almost incredible stories of fantastic violence and excess lie the dark secrets of Western greed and complicity, the insatiable taste for chocolate, oil, diamonds and gold that have encouraged dictators to rule with an iron hand, siphoning off their share of the action into mansions in Paris and banks in Zurich and keeping their people in dire poverty.

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

"A mesmerizing study of books by despots great and small, from the familiar to the largely unknown." —The Washington Post A darkly humorous tour of "dictator literature" in the twentieth century, featuring the soul-killing prose and poetry of Hitler, Mao, and many more, which shows how books have sometimes shaped the world for the worse Since the days of the Roman Empire dictators have written books. But in the twentieth-century despots enjoyed unprecedented print runs to (literally) captive audiences. The titans of the genre—Stalin, Mussolini, and Khomeini among them—produced theoretical works, spiritual manifestos, poetry, memoirs, and even the occasional romance novel and established a literary tradition of boundless tedium that continues to this day. How did the production of literature become central to the running of regimes? What do these books reveal about the dictatorial soul? And how can books and literacy, most often viewed as inherently positive, cause immense and lasting harm? Putting daunting research to revelatory use, Daniel Kalder asks and brilliantly answers these questions. Marshalled upon the beleaguered shelves of The Infernal Library are the books and commissioned works of the century's most notorious figures. Their words led to the deaths of millions. Their conviction in the significance of their own thoughts brooked no argument. It is perhaps no wonder then, as Kalder argues, that many dictators began their careers as writers.

'Lazere's [book] is heaven-sent and will provide a crucial link in the chain of understanding how conflicts are structured and, most importantly, how they can be rationally addressed - a healthy antidote to the scepticism that has become so pervasive in academic life.' Alan Hausman, Hunter College This innovative book addresses the need for college students to develop critical reading, writing, and thinking skills for self-defence in the contentious arena of American civic rhetoric. In a groundbreaking reconception of composition theory, it presents a comprehensive critical perspective on American public discourse and practical methods for its analysis. Exercises following the text sections and readings help students understand the ideological positions and rhetorical patterns that underlie opposing viewpoints in current controversies - such as the growing inequality of wealth in America and its impact on the finances of college students - as expressed in paired sets of readings from the political left and right. Widely debated issues of whether objectivity is possible and whether there is a liberal or conservative bias in news and entertainment media, as well as in education itself, are foregrounded as topics for rhetorical analysis.
