Exhaustively annotated and illustrated, Creating Christ is an explosive work of history, unearthing clues that finally reveal the truth about one of the world's great religions. Christianity was born out of the cataclysmic conflict between the Roman Empire and messianic Jews that culminated in two bitter wars fought during the 1st and 2nd Centuries. The Romans not only reduced the legendary Jerusalem Temple to a Wailing Wall, they grafted their imperial rule onto the religion of the vanquished, as well—just as they had done with other conquered cultures. Inherited from an era of tyranny, war and deliberate religious fraud, the New Testament was created for a long-forgotten purpose: the pacification of messianic rebels. After 30 years of research, authors James S. Valliant and Warren Fahy present irrefutable archaeological and textual evidence that proves Christianity was created by the Roman state with arguments that break new ground in Christian scholarship while providing a clear and definitive voice to a growing new understanding of Christian origins—one that is destined to change the way the world looks at religion forever. Praised by scholars like Dead Sea Scrolls translator Robert Eisenman (the author of James the Brother of Jesus), Creating Christ is a comprehensive synthesis of historical detective work that integrates all of the surviving ancient sources about the earliest Christians and reveals new archaeological evidence for the first time—and, when taken together, that evidence is resoundingly conclusive: Christianity was invented by Roman emperors.

Was Jesus the invention of a Roman emperor? The author of this ground-breaking book believes he was. "Caesar's Messiah" reveals the key to a new and revolutionary understanding of the origin of Christianity, explaining what is the New Testament, who is the real Jesus, and how Christ's second coming already occurred. The clues leading to these startling conclusions are found in the writings of the first-century historian Flavius Josephus, whose "Wars of the Jews" is one of the only historical chronicles of this period. Closely comparing the work of Josephus with the New Testament Gospels, "Caesar's Messiah" demonstrates that the Romans directed the writing of both. Their purpose: to offer a vision of a "peaceful Messiah" who would serve as an alternative to the revolutionary leaders who were rocking first-century Israel and threatening Rome. Similarly, "Caesar's Messiah" will rock our understanding of Christian history as it reveals that Jesus was a fictional character portrayed in four Gospels written not by Christians but Romans. This Flavian Signature edition adds Atwill's latest discoveries of numerous parallel events in sequence which ultimately reveal the identity of the true authors of the Gospels.

A lively and accessible guide to the rich literary, philosophical and artistic achievements of the notorious age of Nero.

The question is: Is Jesus Divus Julius? (Is Jesus the historical figure of Divus Julius, the god to which Julius Caesar was elevated?). The iconography of Caesar do not fit our idea of him. In our minds Caesar is a field marshal and a dictator. However, authentic images portray the idea of the clementia Caesaris, a clement Caesar. Jesus' life is congruent to the life of Caesar. Both Julius Caesar and Jesus began their careers in northern countries: Caesar in Gaul, Jesus in Galilee; both cross a fatal river: the Rubicon and the Jordan; both then enter cities; Corfinium and Cafarnaum; Caesar finds Corfinium occupied by a man of Pompey and besieges him, while Jesus finds a man possessed by an impure spirit. There is similarity in structure as well as in place names. People in the stories of Caesar and of Jesus are structurally the same people, even by name and location. Caesar's most famous quotations are found in the gospels in structurally significant places.

Bestselling classical historian Barry Strauss delivers " an exceptionally accessible history of the Roman Empire. . .much of Ten Caesars reads like a script for Game of Thrones " (The Wall Street Journal)—a summation of three and a half centuries of the Roman Empire as seen through the lives of ten of the most important emperors, from Augustus to Constantine. In this essential and " enlightening " (The New York Times Book Review) work, Barry Strauss tells the story of the Roman Empire from rise to reinvention, from Augustus, who founded the empire, to Constantine, who made it Christian and moved the capital east to Constantinople. During these centuries Rome gained in splendor and territory, then lost both. By the fourth century, the time of Constantine, the Roman Empire had changed so dramatically in geography, ethnicity, religion, and culture that it would have been virtually unrecognizable to Augustus. Rome ' s legacy remains today in so many ways, from language, law, and architecture to the seat of the Roman Catholic Church. Strauss examines this enduring heritage through the lives of the men who shaped it: Augustus, Tiberius, Nero, Vespasian, Trajan, Hadrian, Marcus Aurelius, Septimius Severus, Diocletian, and Constantine. Over the ages, they learned to maintain the family business—the government of an empire—by adapting when necessary and always persevering no matter the cost. Ten Caesars is a " captivating narrative that breathes new life into a host of transformative figures " (Publishers Weekly). This " superb summation of four centuries of Roman history, a masterpiece of compression, confirms Barry Strauss as the foremost academic classicist writing for the general reader today " (The Wall Street Journal).

This verse by verse commentary presents the Gospel of Matthew as a counter-narrative that shapes the group of Jesus' followers as an alternative community able to resist the dominant authorities both in Rome and in the synagogue. The Gospel anticipates the time when Jesus will return and establish God's reign over all, including the powers in Rome. Breaking Matthew into five narrative blocks, Carter carefully considers historical, literary, cultural, and ecclesial factors as he explores the themes of marginality and power. A masterful introduction outlines these approaches and surveys other studies on Matthew.

A New York Times Notable Book of 2018 " Searingly passionate...Nixey writes up a storm. Each sentence is rich, textured, evocative, felt...[A] ballista-bolt of a book. " —New York Times Book Review In Harran, the locals refused to convert. They were dismembered, their limbs hung along the town ' s main street. In Alexandria, zealots pulled the elderly philosopher-mathematician Hypatia from her chariot and flayed her to death with shards of broken pottery. Not long before, their fellow Christians had invaded the city ' s greatest temple and razed it—smashing its world-famous statues and destroying all that was left of Alexandria ' s Great Library. Today, we refer to Christianity ' s conquest of the West as a " triumph. " But this victory entailed an orgy of destruction in which Jesus ' s followers attacked and suppressed classical culture, helping to pitch Western civilization into a thousand-year-long decline. Just one percent of Latin literature would survive the purge; countless antiquities, artworks, and ancient traditions were lost forever. As Catherine Nixey reveals, evidence of early Christians ' campaign of terror has been hiding in plain sight: in the palimpsests and shattered statues proudly displayed in churches and museums the world over. In The Darkening Age, Nixey resurrects this lost history, offering a wrenching account of the rise of Christianity and its terrible cost.

Saul of Tarsus is one of the best known and most beloved figures of Christianity. This man, later known as St. Paul, set the tone for Christianity, including an emphasis on celibacy, the theory of divine grace and salvation, and the elimination of circumcision. It was Paul who wrote a large part of the New Testament, and who called it euangelion, "the gospel". There is another side of Paul, however, that has been little studied and that is his connection to the Roman military establishment and its intelligence arm. While other scholars have suggested the idea that Paul was cooperating with the Romans, this is the first book-length study to document it in detail. By looking at the traditional story through a new lens, some of the thorniest questions and contradictions in Paul's life can be unravelled. How did he come to work for the Temple authorities who collaborated with the Romans? How was he able to escape from legal situations in which others would have been killed? Why were so many Jews trying to have Paul killed and to which sect did they belong? These and other mysteries will be solved as the authors follow Paul's career and his connections to Roman intelligence.

"Magisterial. . . . A learned, brilliant and enjoyable study."—G é za Verm è s, Times Literary Supplement In this exciting book, Paula Fredriksen explains the variety of New Testament images of Jesus by exploring the ways that the new Christian communities interpreted his mission and message in light of the delay of the Kingdom he had preached. This edition includes an introduction reviews the most recent scholarship on Jesus and its implications for both history and theology. "Brilliant and lucidly written, full of original and fascinating insights."—Reginald H. Fuller, Journal of the American Academy of Religion "This is a first-rate work of a first-rate historian."—James D. Tabor, Journal of Religion "Fredriksen confronts her documents—principally the writings of the New Testament—as an archaeologist would an especially rich complex site. With great care she distinguishes the literary images from historical fact. As she does so, she explains the images of Jesus in terms of the strategies and purposes of the writers Paul, Matthew, Mark, Luke, and John."—Thomas D ' Evelyjn, Christian Science Monitor
