In this reissue of a 1967 volume for the publisher's American Philosophy series, Father Potter (d. 1994, philosophy, Fordham U.) adds to the increasing recognition of Peirce (1839-1914) as a major US logician. This tripartite examination is of Peirce's trio of normative sciences: namely, esthetics, ethics, and logic--with esthetics as the driving force. Potter's analytic trinity consists of: pragmatism and the normative sciences, synechism (the doctrine of continuity) and law, and tychism (the probabilistic nature of the laws of reason) and evolution. A "scientific metaphysics" offers important ideas to ponder, as values play so elusive a role in contemporary pluralism. Paper edition (unseen), \$16.00.

Dark deeds make for devilish reading in this short story from the multi-award-winning crime author of *Black Widow*, *Want You Gone* and *Where the Bodies Are Buried*.
Please note that this story was originally published as *The Last Siege of Bothwell Castle* in the *Bloody Scotland* anthology A hostage crisis is developing at a castle on the outskirts of Glasgow, during what is supposed to be Superintendent Catherine McLeod's bank holiday relaxation time. Those trapped inside the castle are used to dealing with the volatile mix of light-fingered teens and obnoxious tourists; less so a

truckload of explosives and a hidden agenda. For Catherine and her team, it's a recipe for a potentially deadly day off. Tense, twisted and laugh-out-loud funny, *Siege Mentality* is a day-trip you won't forget. For more from Catherine McLeod, read the Jasmine Sharp trilogy, beginning with *Where the Bodies are Buried*, a sample from which is included with this short story.

In this book, which was first published in 1983, Frank Kermode looks in particular at the revived Russian Formalism, a highly original body of literary theory that flourished in the years immediately following the

Revolution, and at the work of Roman Jakobson, one of its most distinguished exponents. He discusses its modern 'structuralist' descendants, recalling the importance of Roland Barthes and the invigorating effect of his fertile and surprising mind. He considers also the work of Foucault, Lacan and Levi-Strauss, as well as that of Jacques Derrida, which uses a novel and de(con)structive method of analysis to question the tacit assumptions on which structuralism is based. In an opening chapter, Professor Kermode surveys his relationship with the new theory, explaining that it is a relation from which he has benefited without ever feeling disposed to join a movement.

These essays will be of interest to students of literature.

A grisly murder reveals the hateful secrets that lie beneath a small town ' s surface The locals call her the Ballou. An illustrator for a high-fashion magazine, she has been the talk of the upstate town of Sutton ever since she first appeared, paying cash for one of the finest houses on Nicholas Street. Daring, gaudy, and grand, she inspires envy in the women and lust in the men. And in one member of this quiet town, she is about to inspire murder. The trouble starts when her rakish New York lover moves in full time, scandalizing the prudish Ayers family next door. When the Ayers ' maid pays a social call to the Ballou, she finds

her lying dead at the foot of a staircase—gray, cold, and fabulous no more. Suspicion falls on the Ayerses, whose starched exterior hides a wealth of ugly secrets. From this interlocking narrative told from the perspectives of the citizens of Sutton comes a reminder that no town is too small for murder.

Reflections on the life of Aretha Franklin captured in exclusive photographs by her friend, photojournalist Linda Solomon.
