Holden Commodore Manual Transmission

The Holden Commodore (VE) is an executive car that was produced by the Australian manufacturer Holden from 2006 to 2013. It was the first iteration of the fourth generation of this Australian-made model. Its range included the luxury variants, Holden Berlina (VE) and Holden Calais (VE); utility models were included as the Holden Ute (VE). As opposed to the VZ and all models previous which

Holden Commodore (VE) - Wikipedia
While manual versions of the Commodore Ute form this era did, indeed, change gearbox types as the years progressed, the automatic version stuck with the same unit, so the gearbox and all its ancillary bits and pieces should be a straight swap. And how good is a ute with a bench seat for three and a column-shift?

Thus for the first time, the Holden Commodore lost its position as Australia's best-selling car. Production of this model ceased in February 1984, to be replaced by the much further facelifted Holden Commodore (VK). Export markets. In Indonesia the only engine available was the 1.9-liter four, in SL/X trim and with a five-speed manual.

sedan that was produced by Holden in Australia, and then exported to the United States, where it was sold by Pontiac. The G8, a rebadged Holden Commodore, was released in early 2008 for the 2008 model year in the United States, and in 2008 for the 2009 model year in Canada. Production stopped in mid-2009, following the GM decision to suspend the Pontiac brand.

Holden's 3.6L V6 Alloytec engines will be mated to GM's five-speed and four-speed automatic transmissions or six-speed manual transmission from Aisin, depending on model. All have received significant improvements and extensive calibration work by GM powertrain engineers to balance each transmission's performance with buyer expectations.
