Connie Ramos, a woman in her mid-thirties, has been declared insane. But Connie is overwhelmingly sane, merely tuned to the future, and able to communicate with the year 2137. As her doctors persuade her to agree to an operation, Connie struggles to force herself to listen to the future and its lessons for today.... From the Paperback edition.

She found her place in a turbulent era of deep passions, heartbreaking sacrifices, and grand dreams. When scholarly, smart Mary Margaret is sixteen, her father marries her off to a drunken neighbor in return for a tract of land. The year is 1924, and Mary Margaret's motherless childhood has already been hard as a farm girl on the desolate prairies of North Dakota. Abused and helpless, the new Mrs. "Marge" Garrity seems destined for a tragic fate. But Marge is determined to make her life count, no matter what. Her escape from her brutal marriage takes her to California, where she struggles to survive the Great Depression and soon answers the lure of the state's untamed northern half. There, embraced by the rough-and-ready people who built the great Ruck-a-chucky Dam on the American River, she begins to find her true mission in life and the possibility for love and happiness with an Army Corp engineer of Cherokee Indian descent. Author Dolores Durando knows Marge's world very well. She grew up ninety years ago on the plains of North Dakota.

Nancy, Bess, and George race to catch an international jewel thief in this eighteenth book of the Nancy Drew Diaries, a fresh approach to the classic mystery series. Nancy is helping out her Dad ' s friend, Louise Alain, and her dog, Marge, at an upcoming dog show in Montreal. Marge is a professional and needs someone she can trust to handle her at the biggest show of the season. Nancy is happy to oblige, especially since Louise invited Bess and George as well! Of course, the three friends are investigating a crime within hours of their arrival. One of the show dogs was drugged and a giant wad of gum was matted into its hair. Louise asks Nancy to investigate and gives her a useful tip: look at the dogs—their temperaments and styles are often a good window into the hearts and minds of their owners. But instead of solving a case of competitor sabotage, Nancy discovers jewel thieves have been using the dog show circuit as a smuggling operation. The thieves are not comfortable with the teenage sleuth who ' s asking too many questions. And when they make some serious threats, Nancy, Bess, and George quickly find themselves in dangerous territory. Can Nancy discover the thieves ' identity and take home the trophy? Or is this one case where the bite is worse than the bark?
