Authors Susan Ricci and Terri Kyle have teamed up to deliver a unique resource for your students to understand the health needs of women and children. This new combination book, Maternity and Pediatric Nursing, will empower the reader to guide women and their children toward higher levels of wellness throughout the life cycle. The textbook emphasizes how to anticipate, identify, and address common problems to allow timely, evidence-based interventions. Features include unfolding case studies throughout each chapter, multiple examples of critical thinking, and an outstanding visual presentation with extensive illustrations depicting key concepts. A bound-in CD-ROM and a companion Website include video clips and NCLEX®-style review questions.

"Many nursing curricula combine and teach maternity and pediatrics in tandem. This can be viewed as a natural fit of two content areas that belong together"--

Focus your course on essential concepts and establish the basis for the sound nursing care of women and children with Maternity and Pediatric Nursing, Fourth Edition. The latest edition of this trusted text has been designed with your curriculum in mind, helping you maximize your class time and establish the knowledge base and critical thinking skills students need to ensure safe, effective maternity and pediatric care and guide women and children toward higher levels of wellness throughout the life cycle. A nursing process approach provides relevant information in a concise, straightforward manner, streamlining coverage of a broad scope of maternity topics and clearly distinguishing the differences between the care of adults and children. Emphasizing commonly encountered clinical challenges in maternity and pediatric care, this practical text builds students' ability to anticipate, identify and address problems and provide timely, evidence-based interventions to reduce long-term sequelae. The updated Fourth Edition readies students for the realities of practice with unfolding case studies and patient stories that hone students' clinical judgment and challenge them to apply concepts to real-world scenarios they'll encounter throughout their nursing careers. Create Your Ideal Course with These Additional Solutions! CoursePoint+ Turn classroom success into clinical excellence with simulated, real-world practice built directly into your CoursePoint+ tools. In CoursePoint+, the clinical scenarios in Maternity and Pediatric Nursing, 4e are joined by vSim® for Nursing scenarios and Lippincott® Advisor access, giving students a comprehensive, hands-on experience across a variety of patient diagnoses and situations, as well as unparalleled preparation for the following types of challenges they will face in the clinical setting: Lippincott® CoursePoint+ includes; Engaging course content provides a variety of learning tools to engage students of all learning styles. A more personalized learning approach gives students the content and tools they need at the moment they need it, giving them data for more focused remediation and helping to boost their confidence and competence. Powerful tools, including varying levels of case studies, interactive learning activities, and adaptive learning powered by PrepU, help students learn the critical thinking and clinical judgment skills to help them become practice-ready nurses. Unparalleled reporting provides in-depth dashboards with several data points to track student progress and help identify strengths and weaknesses. Unmatched support includes training coaches, product trainers and nursing education consultants to help educators, and students implement CoursePoint with ease. vSim for Nursing | Maternity and Pediatric Designed to simulate real maternity and pediatric nursing scenarios, vSim® for Nursing, co-developed by Laerdal® Medical and Wolters Kluwer, allows students to interact with virtual patients in a safe, realistic online environment, enhancing students' critical thinking skills and promoting clinical confidence and competence. Maternity Scenarios Amelia Sung Shoulder Dystocia Brenda Patton Group B Strep Positive Carla Hernandez Preparation for C-section Cord Prolapse Fatime Sanogo Moderate Postpartum Hemorrhage Olivia Jones Severe Preeclampsia Pediatric Scenarios Brittany Long Sickle Cell Anemia - Acute Pain Crisis Charlie Snow Anaphylaxis Eva Madison Dehydration Lippincott® DocuCare This leading educational EHR training solution readies your students for the clinical demands of practice by delivering realistic experience working with EHRs in a safe, true-to-life setting. Designed and refined by nurse educators, Lippincott DocuCare lets you interact with your students, track their progress and focus your teaching strategies -- all in one easy-to-use program.

Designed to accompany Maternity and Pediatric Nursing, this handy study aid offers learning objectives, exercises, and practice questions to help students retain and apply information and succeed in the classroom. The study guide includes over 150 review questions organized by Assessing Your Understanding, Applying Your Knowledge, and Practicing for NCLEX®. Assessing Your Understanding presents matching, true/false, and fill-in-the-blank questions to test comprehension of key concepts. Applying Your Knowledge consists of case studies and exercises to enhance critical thinking skills. Practicing for NCLEX® helps students prepare for the exam with a variety of review questions.
