Never, in all her twenty years of life, had Star Berkley seen the likes of Sir Edward. He was so damned arrogant, so damned fashionable, and so damned insolent-and he was the most handsome man she had ever come across! Sir Edward, for his part, could do without the pert country airs of a chit like Miss Berkley. She was impish, plain-spoken, and obviously not his sort, which was just as well, for it seemed she had stolen the heart of his closest friend. Then Sir Edward stumbled onto a most sordid secret: the Berkleys' estate teetered on ruination, and brother and sister were being brutally blackmailed by a vile den of thieves. Sir Edward meant to save them, if Star would allow him, and he was a determined man, determined that she would allow him ... everything.

What if you had just learned that your days are about to come to an end? Would you quietly accept your destiny, or would you fight this one final battle? And what if the demons of your past disturb the delicate reconciliation you thought you had found? These are the questions facing John Kadel in "If only I could...", a simple story about love. This is not a romance. It is a tale of the true and lasting love each of us dreams about, the undeniable love only some of us find in a lifetime of searching. John Kadel is a stubborn, single old man with a colorful past and questions for which he has no answers. Not long after his doctor hands him a death sentence, John runs into someone from his past.
