Bill of Quantities

A bill of quantities (BOQ) is a document or format used in all type of tendering works in the construction industry in which materials, parts, and labor (and their costs) are itemized in tabular forms like in columns and rows. It also (ideally) details the terms and conditions of the construction or repair contract and itemizes all work to enable a contractor to price the work for which he or she is bidding.

Bill of Quantities (BOQ) Building - Civil Engineers PK

BOQ helps to contractors get an itemized list of materials, equipment, and labour (with their costs) required to build new projects, maintain, or repair existing structures. Bill of quantities may be prepared using different types of standard methods of measurement depending on the work categories such as building construction and civil engineering projects.
