The classic history of Adolph Hitler's rise to power and his dramatic defeat

Chronicles the Nazi's rise to power, conquest of Europe, and dramatic defeat at the hands of the Allies.

"Based in part on documents seldom used by previous historians, this history of the Third Reich shows how the dramatic, improbable rise of the Nazis

happened because of tragic miscalculations and blunders, then documents what life was like for ordinary Germans as the Nazis precipitated the horrors of World War II and the Holocaust"--

"First published in Great Britain by Little, Brown Book Group."

National Book Award Winner: The definitive account of Nazi Germany and "one of the most important works of history of our time" (The New York Times). When the Third Reich fell, it fell swiftly. The Nazis had little time to destroy their memos, their letters, or their diaries. William L. Shirer's sweeping account of the Third Reich uses these unique sources, combined with his experience living in Germany as an international correspondent throughout the war. The Rise and Fall of the Third Reich earned Shirer a National Book Award and continues to be recognized as one of the most important and authoritative books about the Third Reich and Nazi Germany ever written. The diaries of propaganda minister Joseph Goebbels, as well as evidence and other testimony gained at the Nuremberg Trials, could not have found more artful hands. Shirer gives a clear, detailed, and well-documented account of how it was that Adolf Hitler almost succeeded in conquering the world. With millions of copies in print, The Rise and Fall of the Third Reich is a chilling and illuminating portrait of mankind's darkest hours. "A monumental work." –Theodore H. White

A history of Adolf Hitler's rise to power and the collapse of democracy in Nazi Germany explains why Nazism's ideology of hatred flourished in a country embittered by military defeat and economic disaster following World War I.

The definitive account of Germany's malign transformation under Hitler's total rule and the implacable march to war This magnificent second volume of Richard J. Evans's three-volume history of Nazi Germany was hailed by Benjamin Schwartz of the Atlantic Monthly as "the definitive English-language account... gripping and precise." It chronicles the incredible story of Germany's radical reshaping under Nazi rule. As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms, Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939. The Third Reich in Power is the fullest and most authoritative account yet written of how, in six years, Germany was brought to the edge of that terrible abyss.

A chilling historical account of the Nazi period probes the human side of the drama, exploring the reasons why people loved and hated the fascist German philosophy. 15,000 first printing.

Beginning in the broken aftermath of the First World War and the Treaty of Versailles that made German recovery almost impossible, Whittock tells not just the account of the men who rose to the fore in the dangerous days of the Weimar republic, circling around the cult of personality generated by Adolf Hitler, but also a convincing and personality-driven overview of how ordinary Germans became seduced by the dreams of a new world order, the Third Reich. The book also gives a fascinating insight into the everyday life in Germany during the Second World War and explores key questions such as how much did the Germans know about the Holocaust and why did the regime eventually fail so disastrously?

Essays discuss political violence, village life, public opinion of Hitler, Nazi policy against the Jews, social outcasts, and the experience of youngsters growing up in Nazi Germany
