La vanga a fulcro che ho inventata, l'ho anche battezzata con questo nome. In realtà ho inventato il “ fulcro flessibile ” con le molle che si caricano di energia. Si usa con le mani e ti fa risparmiare l'ottanta per cento di fatica e i dolori di schiena. Velocizza il lavoro e serve bene a coltivare l'orto di casa, la usano anche le signore. Nel mio libro spiego con una quarantina di foto e con i commenti tutto quello che serve per costruirsi l'attrezzo da sé , in modo che chiunque avendo letto il libro se la sentisse di realizzare l'attrezzo, potrebbe farlo. Fare l'orto è anche un altro modo di superare la crisi.

Spring, 1967. The trail of tragedy and destruction that followed the previous winter's flood seems to have died down; Florence is beginning to recover. But Inspector Bordelli does not feel the same sense of relief - he has not had a moment's peace since his investigation of a young boy's murder went disastrously wrong. Unsettled and embittered, Bordelli resigns from the force and leaves the city. He could not continue to work as a policeman while the perpetrators of such a terrible crime were still at large. Now, in the solitude of his new home in the Tuscan hills, he spends his days cooking, going for long walks and learning to grow his own vegetables. But the thought of that case - of justice not served -

is constantly with him. Until fate, in which he has never believed, unexpectedly offers him the chance of retribution . . .

Written by a collective of female artists and art professionals, a unique, humorous guide explores and often corrects the male-centric history of classic Western art traditions by offering slightly altered renditions of works throughout the ages. Original.

Italy's residents are a migratory people. Since 1800 well over 27 million left home, but over half also returned home again. As cosmopolitans, exiles, and 'workers of the world' they transformed their homeland and many of the countries where they worked or settled abroad. But did they form a diaspora? Migrants maintained firm ties to native villages, cities and families. Few felt much loyalty to a larger nation of Italians. Rather than form a 'nation unbound,' the transnational lives of Italy's migrants kept alive international regional cultures that challenged the hegemony of national states around the world. This ambitious and theoretically innovative overview examines the social, cultural and economic integration of Italian migrants. It explores their complex yet distinctive identity and their relationship with their homeland taking a comprehensive approach.

The pontificate of Clement VII (Giulio de' Medici) is usually regarded as amongst the most disastrous in history, and the pontiff characterized as timid, vacillating, and avaricious. It was during his years as pope (1523-34) that England broke away from the Catholic Church, and relations with the Holy Roman Emperor deteriorated to such a degree that in 1527 an Imperial army sacked Rome and imprisoned the pontiff. Given these spectacular political and military failures, it is perhaps unsurprising that Clement has often elicited the scorn of historians, rather than balanced and dispassionate analysis. This interdisciplinary volume, the first on the subject, constitutes a major step forward in our understanding of Clement VII's pontificate. Looking beyond Clement's well-known failures, and anachronistic comparisons with more 'successful' popes, it provides a fascinating insight into one of the most pivotal periods of papal and European history. Drawing on long-neglected sources, as rich as they are abundant, the contributors address a wide variety of important aspects of Clement's pontificate, re-assessing his character, familial and personal relations, political strategies, and cultural patronage, as well as exploring broader issues including the impact of the Sack of Rome, and religious renewal and reform in the pre-Tridentine period. Taken together, the essays collected here provide the most expansive and nuanced portrayal yet offered of Clement as pope, patron, and politician. In reconsidering the politics and emphasizing the cultural vitality of the period, the collection provides fresh and much-needed revision to our understanding of Clement VII's pontificate and its critical impact on the history of the papacy and Renaissance Europe.

This lovely book is as close as we can come to meeting Proust in person.

“ You either love Andrea Camilleri or you haven ’ t read him yet. Each novel in this wholly addictive, entirely magical series, set in Sicily and starring a detective unlike any other in crime fiction, blasts the brain like a shot of pure oxygen. Aglow with local color, packed with flint-dry wit, as fresh and clean as Mediterranean seafood — altogether transporting. Long live Camilleri, and long live Montalbano. ”
A.J. Finn, #1 New York Times bestselling author of *The Woman in the Window* Twenty-one short stories spanning the beloved Inspector Montalbano's career Inspector Montalbano has charmed readers in nineteen popular novels, and now in *Montalbano ’ s First Case and Other Stories*, Andrea Camilleri has selected twenty-one short stories, written with his trademark wit and humor, that follow Italy ’ s

famous detective through highlight cases of his career. From the title story, featuring a young deputy Montalbano newly assigned to Vig à ta, to “ Montalbano Says No, ” in which the inspector makes a late-night call to Camilleri himself to refuse an outlandish case, this collection is an essential addition to any Inspector Montalbano fan ’ s bookshelf and a wonderful way to introduce readers to the internationally bestselling series.
